IMPORTANT NOTICE

The data listed herein is correct to the best of our knowledge and belief, having been compiled from reliable and official sources of information. However, we cannot assume any responsibility for possible errors.

HOW TO USE THIS CATALOG

1. Locate Manufacturer, Make.
2. Locate Model.
3. Locate Year
4. Locate Appropriate Application.
(Refer to Specific Information and Diagram for the Correct Application.)
5. Select Appropriate Universal Joint or Hardware Kit for Proper Application.

LUBRICATION NOTICE

Notice: All universal joints must be lubricated with the appropriate grease prior to use. The grease found on the universal joints used for storage purposes only and is Not appropriate for use

Lubricate as follows:

Normal Use: Lithium soap base E.P. grease meeting N.L.G.I. (National Lubricating Grease Institute) Grade 1 or 2

Severe Use: Lithium soap base E.P. grease meeting an operating range of +325 deg F. to -10 deg F.
Grease should meet N.L.G.I. Grade 1 or 2

Low Speed Use: (Shaft speed below 500 RPM) Mineral Oil with viscosity range of SAE 140-250.

UNIVERSAL JOINTS FEATURES

Universal Joints — Standard

Features

- * Designed to Meet or Exceed O.E. Specifications.
- * Full Domestic & Foreign Car - Lt. Truck - Heavy Duty - Off Road - Agriculture
- * Integrated Production System
- * Special Chrome / Molybdenum Steel Composition
- * Cold Forged Cross
- * Cold Forged Bearing Caps with "U" Shaped Fibers
- * Heavy Duty Needle Bearings
- * Lindberg Carbonized Heat Treating
- * Multiple Stages of Testing Prior to Final Assembly
- * Bagged Joint & Hardware / Keeps Joint & Hardware Together

Benefits

- * Exact O.E. Fit
- * Brand Name Recognition
- * Meets or Exceeds O.E. Specifications

Universal Joints — Performance

Features

- * Cold Forged with Lindberg Heat Treatment
- * Oversized Elliptical Shaped Bearings
- * Black Rust Proof Finish
- * "Lubri—Groove
- * Grease Fitting

Benefits

- * Exact O.E. Fit
- * Limited Lifetime Warranty
- * Exceeds O.E. Specifications
- * Ideal for Truck & Off Road

Finding Domestic PTO Replacement Parts

For cross & bearing kits only — see previous page.
For yokes, shafts, tubes, etc., you need to identify the series.

Measure the ear hole of the yoke as shown. Refer to the chart.
If the yoke is painted yellow it is probably metric — see next page.

Ear Hole Diameter	Series
9/16"	"W"
15/16" (1-1/2" Between Yoke Ears)	1000
31/32"	6
1-1/16" (1-13/16" Between Yoke Ears)	12
1-1/16" (2-7/16" Between Yoke Ears)	1310
1-1/8"	14
1-1/4"	35
1-5/16"	44
1-3/8"	2600
1-17/32"	55

If the ear hole measures something other than the dimensions listed above, the series is either metric, obsolete or not available. In that case, you'll need to replace the complete assembly using the method below.

Measure the width of the yoke as shown. Use the series indicated.

Use Our 1000 or 6 Series

Use Our 12 Series

Use Our 14 Series

Use Our 35 Series

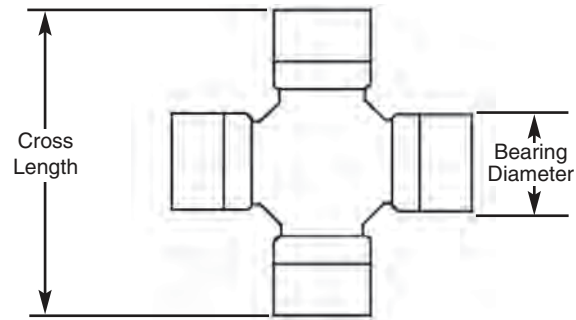

Use Our 44 Series

Use Our 55 Series

Identifying Metric PTO Cross & Bearing Kits

Bearing Diameter	Overall Length	Part No.	Series
0.868" (22mm)	2.12" (54mm)	250-0030	1
	2.15" (55mm)	250-0040	2100/100
0.938" (23.8mm)	2.41" (61mm)	250-0050	2/200/2200
1.063" (27mm)	2.75" (70mm)	250-0070	1/3

* U-joint has grooved bearings for inside lock rings and fits yokes with a 2.2" (56mm) inside span.

Domestic PTO Snap Ring U-Joint Finder

Using this chart, a domestic PTO cross & bearing can be correctly identified by matching to the old snap ring. Simply place the old snap ring over the actual size reproduction. The part number of the complete PTO cross & bearing kit is indicated.

Nylon Bearing Repair Kit —

North American

(Kit includes nylon bearing and retainer)

NOTE! Not all guard and bearing systems are interchangeable. When purchasing shaft weld and tube weld yokes or guards, make certain there is a proper fit between nylon bearing raceway in yoke and guard.

The nylon bearings provided with our replacement guards are the most popular in the replacement market. If the nylon bearing provided with the guard is not a proper fit, it is essential that the proper nylon is identified and installed to insure proper performance and safety. To assist in ordering the proper nylon, listed below are stock numbers and dimensions for our standard aftermarket and OEM nylons.

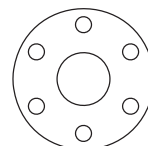

Stock Number	Dim. "A" Yoke Raceway O.D. Nylon Bearing I.D.	Dim. "B" Yoke Raceway Width Nylon Bearing Width	Dim. "C" Nylon Bearing O.D.

251-1296	2 1/32" (2.021")	11/32" (.358")	2 3/4" (2.76")
251-1898	2 5/32" (2.146")	11/32" (.358")	2 3/4" (2.76")
251-1997	1 61/64" (1.947")	9/32" (.291")	2 1/4" (2.25")
251-1992	2 1/8" (2.125")	21/64" (.341")	2 1/2" (2.50")

NOTE! 6, 12, 14, 35 Series North American guards will be provided with (2) sets of nylon bearings. To help assure the proper set of nylon bearings are installed, one bearing set will be exactly the same (bearing raceway dimensions) as has always been provided in our aftermarket guards. The other set will be dimensioned to retrofit our OEM raceway. Assembly instructions included with these guards.

251-1276	Disc only w/ 5/8" Holes

Locking Device

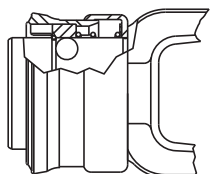

Safety Slide Lock

Our exclusive replacement component, the Safety Slide Lock yoke is locked in place by two hardened pawls with compound radii that conform to the groove in the shaft for full contact.

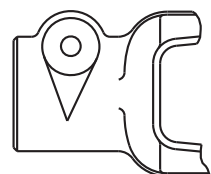

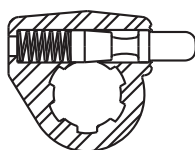

The device is particularly applicable where there is appreciable end thrust.

Spring-Lok

The collar is spring loaded for ease of installation and positive locking to tractor shaft.

Quick Disconnect

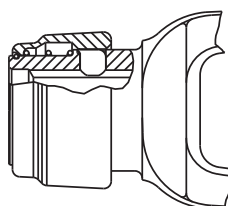

A smooth plunger eliminates sharp projections such as x-washers. Trails rather than leads rotation.

Locking Device Repair Kit

*Auto-Lok/ Safety Slide Lock

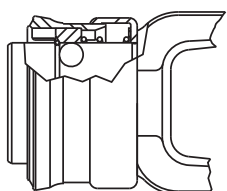

* This repair kit contains both balls & pawls. When repairing the "Safety Slide Lock" use the pawls only and discard the balls. When repairing the "Auto-Lok" use both the balls and the pawls.

Note: When installing Metal or Plastic Guards observe the following:

- 1) Install proper nylon bearing and retainer (see page 218)
- 2) Check to insure guards turn freely on bearing

Easy Lock™ Guard Repair Kit

- Revolutionary design allows simple assembly and disassembly.
- No tools required for assembly and only a screwdriver is required for disassembly.
- All drivelines provided with *patented* user-friendly *EASY LOCK™* Guard.
- 1 bag (4 pcs.) *EASY LOCK™* Guard Clips
- Part No.: 251-2075
